

## Integrating BioBridge SDK with C# (ActiveX)

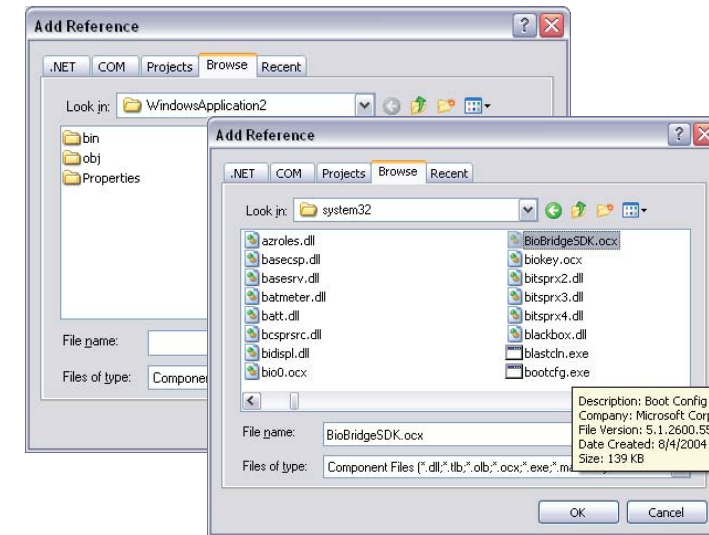

Step 1 ▶ Select the Windows Application and click OK.

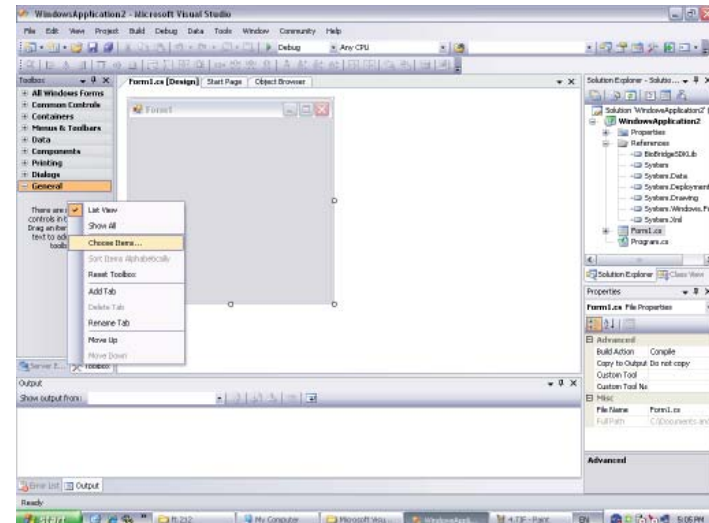

Step 2 ▶ Go to Project > Add References

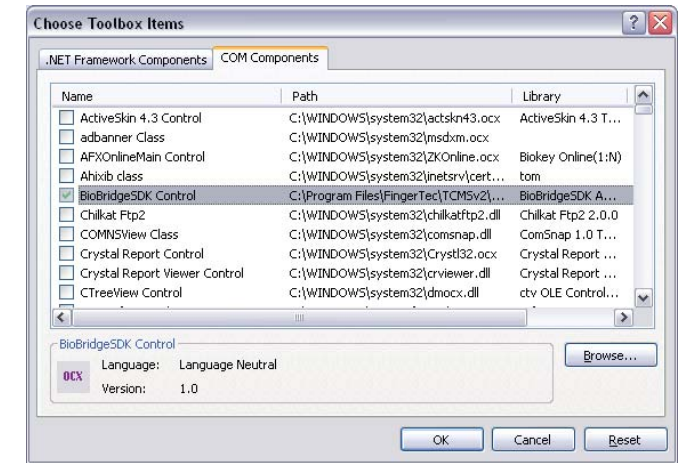

Step 3 ▶ Click on the Browse Tab and locate the BioBridge SDK. It is normally located at C:\windows\system32\BioBridgeSDK.ocx

Step 4 ▶ After that, go to general on your left hand side and right click and select "Choose Items"

Step 5 ▶ Select "COM Components" Tab and select BioBridgeSDK control.

Step 6 ▶ The BioBridge SDK component has been added to your project and now you can start calling its functions.
