ANALYSIS

ON REPORT OF ACCESS CONTROL
SUGGESTIONS & SOLUTIONS FOR TCMS V2

There are 2 type of reports for access control, and these reports are:

1. Staff Movement Analysis
2. Terminal Activity Report

These reports can be used to analyze the movement of staff. Please find the analysis skill as below:

1. Staff Movement Analysis.

User ID		Date		Transaction			
1	1001	22/03/2012	09:03	13:08	13:57	18:15	
	Mark		1 00	1 00	1 00	1 00	
		26/03/2012	18:08	18:36			
			2 00	2 00			
							00: 6

User ID

User name

Date

Transaction details

09:27

03 00

The time when verification is being carried out

FingerTec®
terminal ID

This is the transaction code. The code changes when the user press a button on the terminal before they perform fingerprint verification. The code of each transaction is listed below:

UP button – 00 (Check In)

DOWN button – 01 (Check Out)

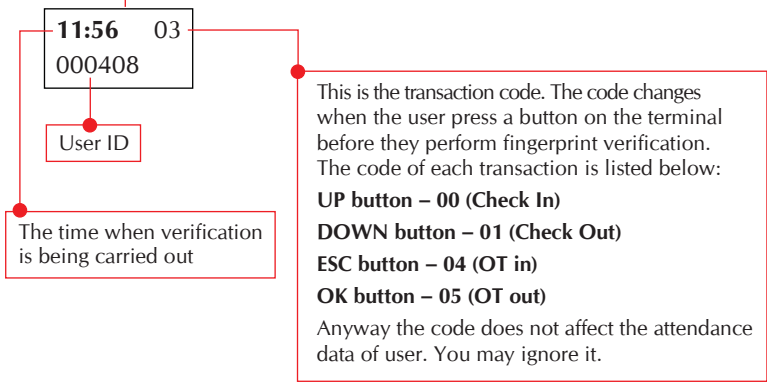

ESC button – 04 (OT in)

OK button – 05 (OT out)

Anyway the code does not affect the attendance data of user. You may ignore it.

2. Terminal Analysis Report.

FingerTec TCMS v2.2		Terminal Activity Report			
		01/03/2012 00:00 - 31/03/2012 00:00			
ID	Description	Date	Transaction		
1	1	22/03/2012	09:03 00	13:08 00	13:57 00 18:15 00
			1001	1001	1001 1001
			00: 4		

Step 5

Select the number pages to be printed on a page.
