EXPORTING RAW DATA

FROM TERMINAL AUDIT LIST TO TEXT FILE FORMAT

SUGGESTIONS & SOLUTIONS FOR TCMS V2

Copyright © 2012 by FingerTec Worldwide Ltd. All rights reserved.| *LAST UPDATE 09 JULY 2012*

In TCMS V2, you could export the user's transaction data into text file format. These transaction data are the raw data output obtained from the terminal. Therefore, these data are not filtered by TCMS V2. You might make use of the raw data to be exported into third party software.
Follow the steps below to export these data:

Step 1 • *Get into the Terminal Audit List window.*

Double-click this item to get into Terminal Data Audit List window.

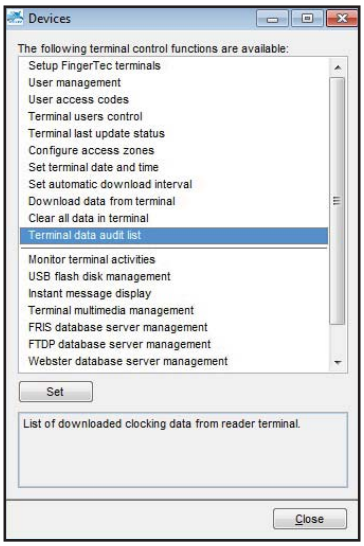

Figure 1.1

Step 2 • *Before exporting the data, you need to pause the process first.*

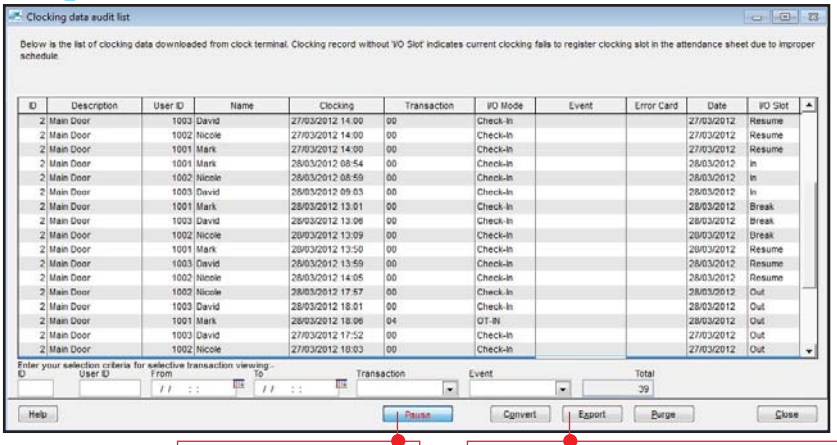

Figure 1.2

Click the Pause button to stop the process.

After the process is stopped, click the Export button to start exporting data.
