FING@RTEC. TO SELECT TERMINALS TO VIEW IN TERMINAL DATA AUDIT LIST

Terminal data audit list is for monitoring activities in each terminal. It will show the terminal ID, user ID, work codes, date/time during verification etc. When there are multiple terminals installed, administrator might only need to monitor activities for some important terminals, such as the main door and the rear door. In the previous version, TCMS V2 will always be connected to all terminals, and this slows down the start up process of this page. In TCMS v2.1.2 version M, administrator can view those terminals selectively. And this speed up the page starts up time.

Step 1

Select Terminal Data Audit List

Click "Select Terminal ID" to define which terminals to connect to.

FING@RTEC. TO SELECT TERMINALS TO VIEW IN TERMINAL DATA AUDIT LIST

Step 3

Uncheck to exclude the terminals from viewing. Press OK to proceed.

Select	D	Group	Description	Status	-
	2	2000 - A.A.A.A.A.A.A.A.A.A.A.A.A.A.A.A.A.A.A	Main Door		
V	3		Back Door		
					-
-					-
	-	<u>.</u>			-
					-

Step 4

Now the page will only display activity from that particular terminal.

0	Description	User ID	Name	Clocking	Transaction	VO Mode	Event	Error Card	Date	VO Slot
3	Back Door	2		28/03/2012 16 47 35	00.Check in	Check-In			28/03/2012	Out
3	Back Door	2		28/03/2012 16:47:39	00:Check in	Check-In			11	1.00
3	Back Door	2		28/03/2012 16:47:44	00.Check in	Check-In			11	
3	Back Door	2		28/03/2012 16:47:51	00:Check in	Check-In			11	
3	Back Door	2		28/03/2012 16:47:57	00:Check in	Check-In			11	
3	Back Door	2		28/03/2012 16:48:05	00:Check in	Check-In			28/03/2012	Out
3	Back Door	2		28/03/2012 16:48:09	00:Check in	Check-In		-	11
